# INDEX

# INTERNATIONAL ORGANIZATION

## Volume VII—1953

Prepared by Lisa V. Thomsen

This index to the seventh volume of *International Organization* has been prepared in the hope that it will make reference to the journal easier for its readers. To that end, it has been made as complete as possible with the factual summary section in particular receiving extensive coverage.

It should be noted that, because of limitations of space, abbreviations have been widely used. In most cases those used are standard ones and are fairly familiar to workers in the field of international relations, although a few may be rather obscure. A listing of abbreviations will be found below.

Individuals who appear only as representatives of their countries have, in general, not been listed, while persons not representing any country but appearing in their individual capacities are included in the index. For statements of policy made by national representatives the reference will be found under the country concerned. As a rule, listings have been made by organ rather than by topic, but many cross-references make possible the finding of topical material.

Paging of Volume VII is as follows: Number 1, February 1953, p. 1–197; Number 2, May 1953, p. 199–324; Number 3, August 1953, p. 325–461; Number 4, November 1953, p. 463–655.
